Maximum Marks	2 Marks

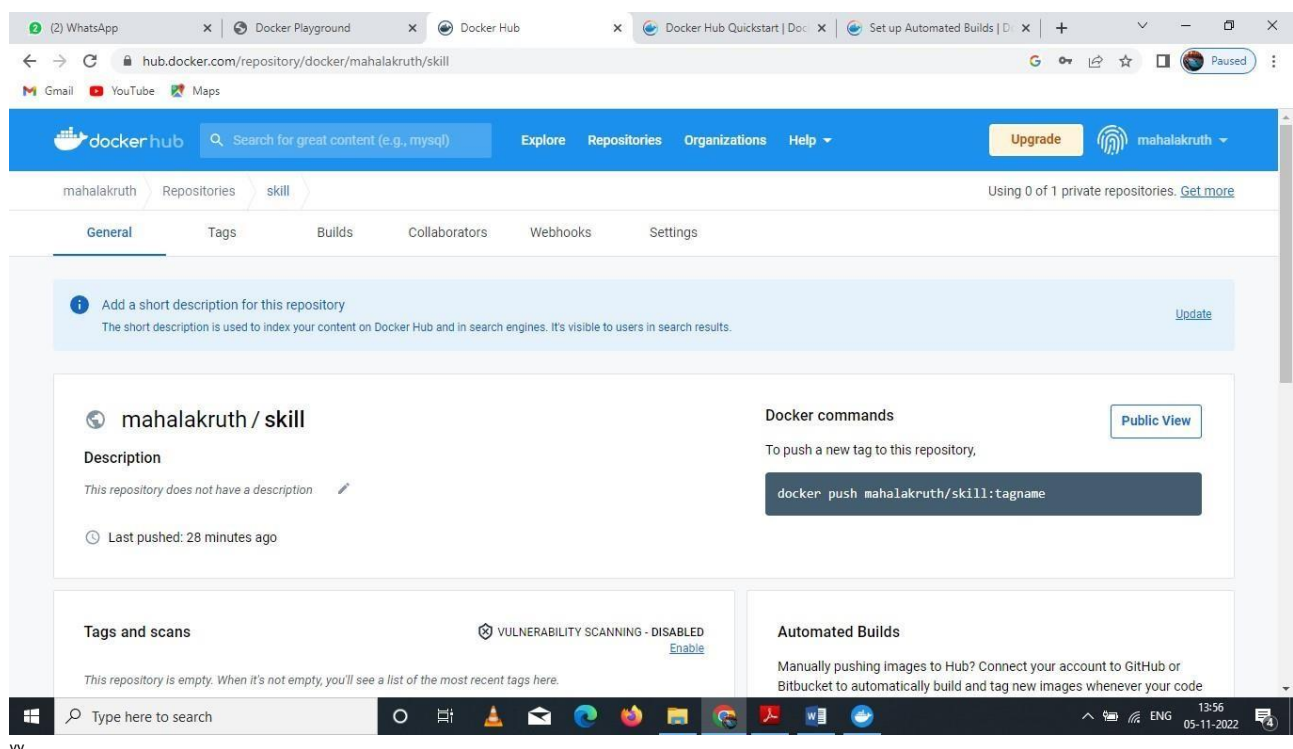

### Question 1:

Pull an image from docker hub and run it on docker playground.

### Solution 1:

```
docker pull uifd/ui-for-docker
```

```
docker run -d -p 9000:9000 --privileged -v /var/run/docker.sock:/var/run/docker.sock uifd/ui-for-docker
```

Docker playground:

The screenshot shows the Docker Playground interface. On the left, a sidebar displays a digital clock at 03:26:45, a 'CLOSE SESSION' button, and an 'Instances' section with a list of instances (192.168.0.18, node1). The main area shows the instance details for 'cdj1c1m0\_cdj1cam0qau000fq8ud0', including its IP (192.168.0.18), memory usage (1.47%), CPU usage (0.57%), and an SSH command. Below this, a terminal window shows the following commands and output:

```
$ docker pull jenkins
Using default tag: latest
Error response from daemon: manifest for jenkins:latest not found: manifest unknown: manifest unknown

$ docker jenkins
docker: 'jenkins' is not a docker command.
See 'docker --help'

## Docker UI:

The screenshot shows the Docker UI interface. The top navigation bar includes 'Dashboard', 'Containers', 'Containers Network', 'Images', 'Networks', 'Volumes', and 'Info'. The 'Containers' section is active, showing a 'Running Containers' list with one container named 'serene\_keller' that is 'Up 17 seconds'. A 'Status' donut chart shows 100% Running (green) and 0% Stopped (red) or Ghost (grey). Below this, a 'Containers created' chart shows a single bar at 1. The 'Images created' chart also shows a single bar at 1. The bottom status bar indicates the time is 12:08 AM on 04-11-2022.
